

BLUE DIAMOND TOURS
LUXURY PERSONALISED BLUE MOUNTAIN TOURS

Boutique Travel to Nature's Motherland

by Mike Angangan

Blue Diamond Tours IN REVIEW

Destination and Experience are the optimum luxuries for world class travellers. But for those who are in need for a place to start could be the most frustrating and time consuming thing to do. However, at Polo De'Marco - we have taken this venture and personalised it by finding experiences that provide that optimum service and overall experience; hence, we have discovered 'Blue Diamond Tours'.

Headed by both 'owners & operators' - this young, good looking and vibrant couple - who look like they've stepped out of Australian Fashion Week; have taken their love and passion of the nature and history of the 'Blue Mountains', and personalised it with a service that can only be met by; "Friends".

Blue Diamond Tours offers a small but; somewhat individual experience within their twelve (12) seater 'Mercedes Benz Mini-Bus' instead of the one hundred (100) seater tour buses that you get from your multi-national tour companies. 'Blue Diamond Tours' offers a "Diamonds" worth of opportunity from personally arranging a time and day that suits you, plus ensuring the weather is at its optimum level; whilst taking the time to arranging your personal point of pick up; from outside of your chosen hotel.

From there - you are on the road for two (2) hours or so to a picturesque town of 'Leura' for morning tea and english style scones with strawberry jam and whipped cream with hand-made pretzels. Then, you move onto the 'look-out' point of the 'Blue Mountains' featuring endless amounts of greenery from the nature, and 'blue' from the skies above that make the mountains picture perfect; that offers a sense of mystery; which is the 'Blue Mountains'.

Then you come across - 'The Aboriginal Legends' which is the story of the "Three Sisters" Meenhi, Wimlab and Gunnedoo' - who were turned into stone. And there you move into a 'world' within a 'world' of its own; which is the 'Scenic World' - a rainforest sanctuary that stretches for miles on end. However, at 'Scenic World' - they bring in the technologies of the 21st Century and offer views that can be profoundly beautiful from their open air rail system which is the steepest in the Southern Hemisphere to their Skyway which is 270 meters about the ground to their high inclined cableway and more specifically their land bounded walkway.

After then, 'Blue Diamond Tours' takes you out; on a short drive to a secluded 'waterfall' that is not only beautiful but; pristine enough to drink. Then, your off on a well deserved luncheon with a good variety of menu from steaks to a vegetarian meal. But, after lunch - another highlight comes your way with a personalised trip to 'Featherdale Wildlife Park' where you can come close to a cute; Koalo, a cheeky kangaroo and fierce 10 foot crocodile.

From there our 'friends' at Blue Diamond Tours' sets you off, back into the city by ferry giving you a sense of eased relaxing with the smell of fresh ocean and the sights of multi-million dollar mansions. Overall, the experience and feel of 'Blue Diamond Tours' is second to none and worth experiencing, especially, being topped off with a commemorative photo and that 'Blue Diamond Tour' smile.
